

Homeschool Enrichment

SEPTEMBER

Ms. Chassidy 2020

What We Are Learning?

In Science, we will be diving into Lab Safety and the Oceans.

In Social Studies/History, we will be discussing Oceans and Continents / Geography.

Welcome to Our New Homeschool Enrichment Program!

A new school year has begun. The staff has spent countless hours readying this classroom. Parents have spent hours on an emotional roller coaster during this year, however, we are here to help you on this journey. No matter what happens in this year, we will be there for you. The highs and lows and everything in between. God put us here to walk with you along this path for a while. We have been praying for you and your child(ren). And now we get to come alongside you for these few months. We are excited for this new journey!

Important Dates

Sept. 14th – Open House
Sept. 18th – First Day of Class

Birthdays
