

Homeschool Enrichment

OCTOBER

Ms. Chassidy 2020

What We Are Learning?

In Science, we are discussing the Ocean's Characteristics and the Tides and Intertidal Zone.

In Social Studies, we are talking about Geography, Map Skills, Cardinal Directions and Where We Live.

We have been very busy learning and getting to know one another better. During these uncertain times, we are giving God the Glory for his wonderful creations. This class has been such a blessing to me, and I know they have enjoyed having each other as well. We are excited to dive into our Marine Biology this month! Thank you for sharing your children with us here at Hocutt!

God's Love and Blessings!

Important Dates

Birthdays

Ms. Chassidy – Oct. 14th
Joaquin – Oct. 16th
